

WARM UP: Rate of Change

1. Who travelled the furthest?
2. Who travelled the fastest? When?
3. Who travelled the slowest? When?
4. Did Jack and Jill ever meet? If so, where?
5. Make up a story to match the graph. Be sure to think about how you think Jack and Jill were travelling, where they may have been going, and good reasons for any changes in speed (hills, traffic, etc.).
